

At Nektar, our first priority is your health and safety. We promise to you, our valued customers that all of our systems and procedures directed by the CDC and local government agencies meet the required guidelines as we prepare our delicious tapas meals for curbside and limited seating. We promise to our guests and our team to re-evaluate our systems and procedures on a daily basis, closely monitor and educate, ensure employee health checks prior to each shift, promote regular hand washing, cleaning, sanitizing and disinfecting surfaces regularly, require the use of face masks and gloves. We will open all windows whenever possible to maximize air flow. We have installed hospital grade iWave Air Purifying generators and IQ Air Health Pro purifiers. Furthermore, we purify the air nightly by way of Ozone sterilization and many other extra initiatives toward slowing the spread.

In order to partially cover the cost of maintaining these government required standards, we are applying a temporary **\$2.00 COVID-19 surcharge per person.**

**Thank you so much for the love and support you've shown us during this strange and difficult time.**  
-The Nektar Team
